Project Name	AI Based Discourse for Banking Industry

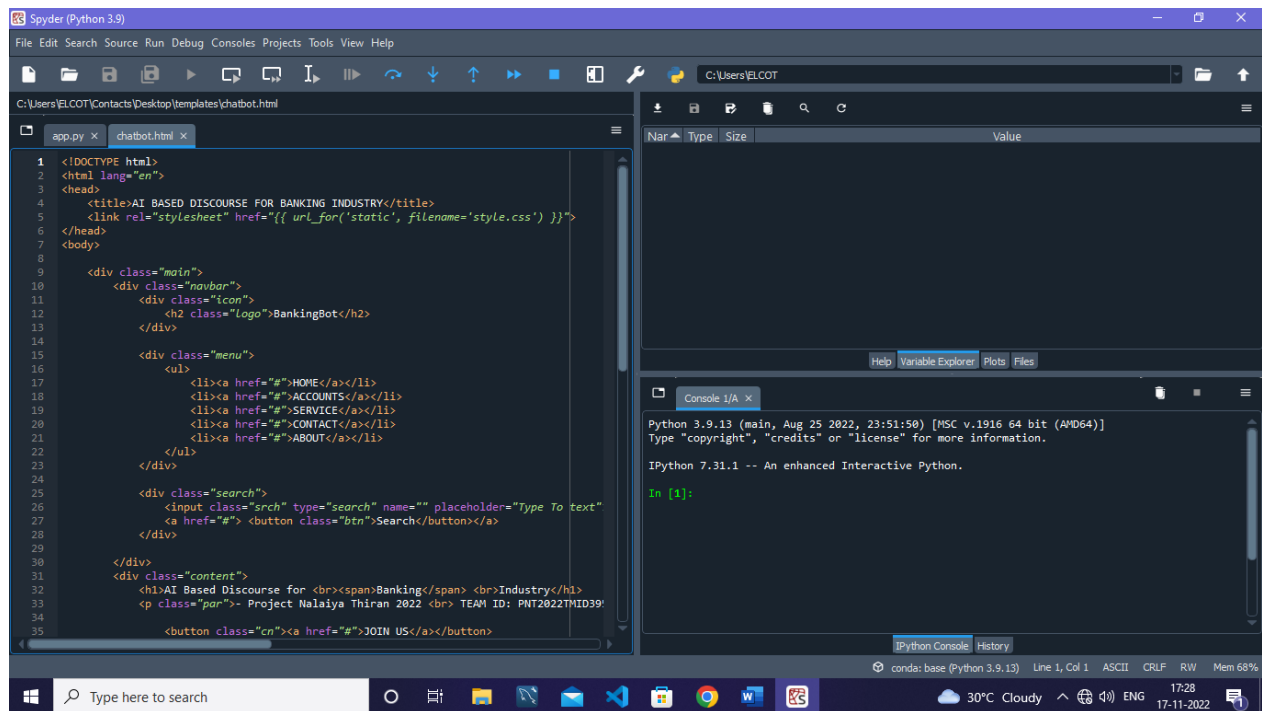

RUN THE CHATBOT APPLICATION

Steps:

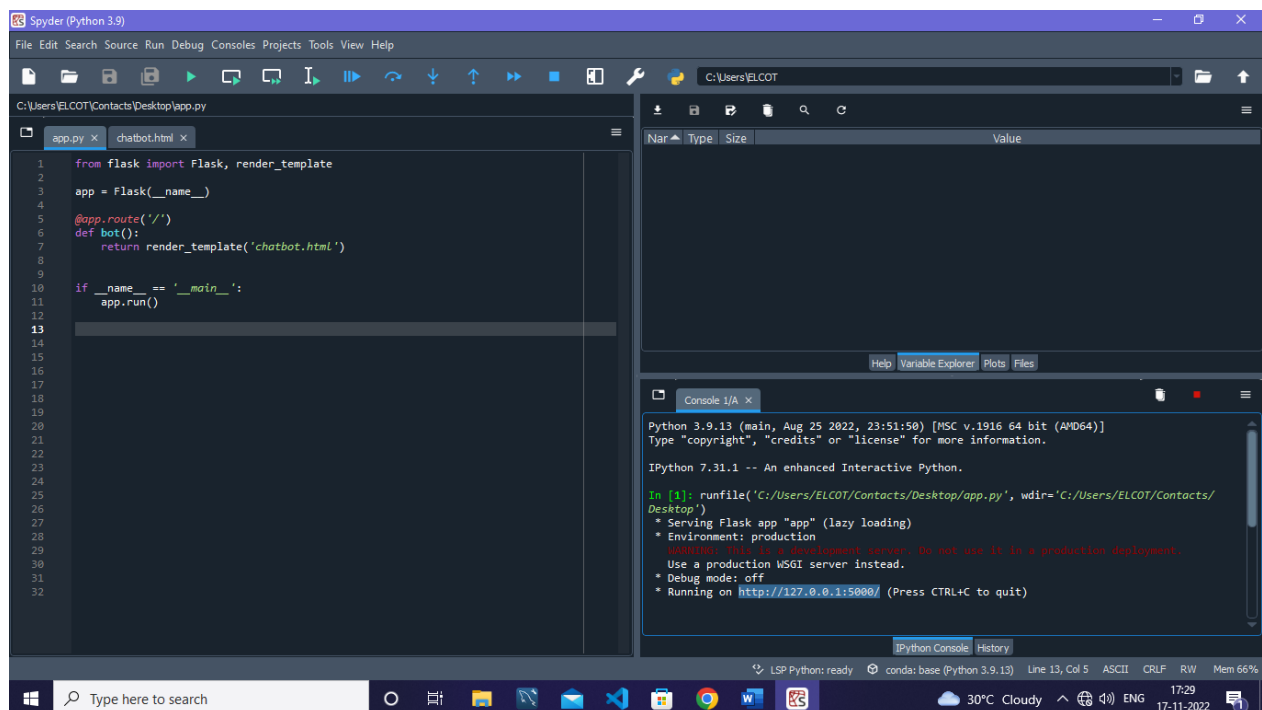

- Open the anaconda prompt from the start menu.
- Navigate to the folder where your app.py resides.
- Now type the “python app.py” command.
- It will show the local host where your app is running on <http://127.0.0.1:5000/>
- Copy that localhost URL and open that URL in the browser. It does navigate me to where you can view your web page.

OPENING APP.PY & CHATBOT.HTML FILES IN ANACONDA NAVIGATOR(SPYDER):

RUNNING FLASK THROUGH LOCAL HOST:

“ RUNNING ON LOCAL HOST: <http://127.0.0.1:5000/> ”

FINAL OUTPUT:
